

Geocaching Skills

Activity

Groups utilize tools such as, GPS handsets maps and coordinates and work together to navigate around local areas of interest to find hidden caches. Groups will need to solve puzzles, communicate effectively and have the perseverance and determination to find all the clues linked to a chosen curriculum subject.

Skills developed include:

Problem Solving

Team work

Communication

Leadership

Organisation

Conflict resolution

Why Geocaching?

The benefits of geocaching are far beyond just being outside the classroom environment. In addition to promoting a healthier lifestyle, students gain a greater respect and understanding of the local environment. The activity provides the students with a memorable and fun learning experience that compliments the chosen curriculum.

Duration – from 2 hours
